The above are acid soil loving plants. As the soil in Central New York is generally on the lime side, prepared beds of peat or acid soil are usually necessary for successful growth.

1. The first part of the document is a list of names and addresses. The names are written in a cursive script, and the addresses are written in a more formal, printed style. The list is organized into two columns, with names on the left and addresses on the right.

2. The second part of the document is a list of names and addresses, similar to the first part. The names are written in a cursive script, and the addresses are written in a more formal, printed style. The list is organized into two columns, with names on the left and addresses on the right.

3. The third part of the document is a list of names and addresses, similar to the first two parts. The names are written in a cursive script, and the addresses are written in a more formal, printed style. The list is organized into two columns, with names on the left and addresses on the right.

4. The fourth part of the document is a list of names and addresses, similar to the first three parts. The names are written in a cursive script, and the addresses are written in a more formal, printed style. The list is organized into two columns, with names on the left and addresses on the right.

5. The fifth part of the document is a list of names and addresses, similar to the first four parts. The names are written in a cursive script, and the addresses are written in a more formal, printed style. The list is organized into two columns, with names on the left and addresses on the right.

6. The sixth part of the document is a list of names and addresses, similar to the first five parts. The names are written in a cursive script, and the addresses are written in a more formal, printed style. The list is organized into two columns, with names on the left and addresses on the right.

7. The seventh part of the document is a list of names and addresses, similar to the first six parts. The names are written in a cursive script, and the addresses are written in a more formal, printed style. The list is organized into two columns, with names on the left and addresses on the right.

8. The eighth part of the document is a list of names and addresses, similar to the first seven parts. The names are written in a cursive script, and the addresses are written in a more formal, printed style. The list is organized into two columns, with names on the left and addresses on the right.

9. The ninth part of the document is a list of names and addresses, similar to the first eight parts. The names are written in a cursive script, and the addresses are written in a more formal, printed style. The list is organized into two columns, with names on the left and addresses on the right.

10. The tenth part of the document is a list of names and addresses, similar to the first nine parts. The names are written in a cursive script, and the addresses are written in a more formal, printed style. The list is organized into two columns, with names on the left and addresses on the right.
